2026 Subject Index

Title	Page
A multidisciplinary evaluation of AI-powered chatbots on apical root-end resection: assessing alignment with international endodontic guidelines-a comparative methodological study	76
Alkasite restorative materials in dentistry: a bibliometric analysis from 2020 to 2025	23
Articulators in prosthodontics: evolution from mechanical to digital systems-a narrative review	119
Assessing the information quality of YouTube™ videos on the effects of smoking on oral health: a cross-sectional study	38
Comparative evaluation of AI-based chatbots in answering prosthodontic questions from the Turkish Dental Specialty Exam (DUS)	84
Comparative evaluation of the performance of AI-powered chatbots in answering basic sciences questions of the dentistry specialization examination	17
Comparing haptic enhanced virtual reality simulation to plastic manikin local anesthesia training: an in-situ evaluation	1
Development of a new teaching tool for visualizing invisible tips by adjusting full dentures	11
Digital literacy and computer self-efficacy among dental students and faculty members	105
Evaluation of antibacterial activity of different pulp capping materials	91
Evaluation of prosthetic restorations in patients receiving dental implants according to patient demographics and treatment variables	162
Fiber-reinforced direct restoration of an endodontically treated molar using polyethylene ribbon and short fiber-reinforced composite: a case report	168
Hierarchy of research study designs: a conceptual and illustrative approach for scientific education	128
Identification of bioaerosol composition in preclinical dental laboratories using MALDI-TOF MS	146
Influence of polishing systems and thermal aging on the surface gloss of microhybrid and nanohybrid resin composites	150
Is the surface abrasiveness of the dental stain eraser on composite resin as minimal as that of the rubber-cup?	158
Learning preferences, distance education perceptions, and anxiety (STAI-S-6) among dentistry students	97
Oral and dental rehabilitation under general anesthesia in a pediatric patient with Smith–Magenis syndrome: first case from Turkiye	70
Oral pigmentations	29
Retrospective evaluation of the effects of non-surgical periodontal therapy on clinical periodontal parameters and deep periodontal pocket burden	44
Root coverage of an isolated gingival recession using the tunnel technique and a de-epithelialized connective tissue graft: an 8-month follow-up case report	172
Success rate of apical resection: a retrospective evaluation of associated factors	51
Surgery for widespread bone and soft tissue necrosis associated with calcium hydroxide extrusion: a case report with submandibular spread	124
The effect of hormonal changes observed in female patients on periodontium	56
The effects of cigarette smoking on gingival phenotype and clinical periodontal parameters	141

Title	Page
The relationship between stress distribution and adhesive failure in non-carious cervical lesions (NCCL): a review	66
Virtual reality and haptic simulation in preclinical dental education: a bibliometric analysis	134
