Title	Page
An overview to biocompatibility of resin based restorative materials	109
Can a new cooling method be used in dental implant drilling? An in vitro pilot study	105
Comparison of aesthetic perceptions created by the factors affecting smile design in different occupational groups	34
Complaints and expectations of patients who admitted to dental faculty hospital	1
Creating smile aesthetics by using crown lengthening and upper lip repositioning surgical operations together in a gingival smile case: a case report	127
Effect of additional polymerization process on color change in composite resins hold in different solutions	41
Effect of different tea solutions on the color stability of composite resins	101
Effect of mouthwash on color change and solubility of composite resins	6
Evaluation of biocompatibility of four different one-step self-etching adhesives by animal experimental method	81
Experiences of dentistry interns during the covid-19 pandemic	13
Gingival and periodontal diseases in children	55
Gingival crevicular fluid and peri-implant sulcus fluid	98
In vitro effect of different cleaning procedures of ah plus on microtensile bond strength of immediate or delayed restoration	90
Investigation of maximum torque values in manual tightening of dental implant healing screws	30
Investigation of the effects of embedded third molar to the second molar through cbct and panoramic radiography	66
Management of a complex dentoalveolar trauma: a case report	27
Management of initial and surgical management of amlodipine-induced gingival enlargement with multifactorial etiology: a case report with 6 months follow-up	123
Pre-mixed calcium silicate-based cements: a literature review	23
Prevalence of elongated styloid process on cone-beam computed tomographic images: a retrospective study	61
Rubber dam application in clinical practice: a study on the patient perspective	19
Short dental implants	95
The importance of treating dental caries in the prevention of medication related osteonecrosis of the Jaw	117
Use of fiber-containing materials in restorative dentistry	49
